MEADOW BANK

“INSPIRED BY COASTAL SAND DUNES;
A BEAUTIFUL GRADIENT STORY”

THE STORY

MEADOW BANK

CURTAIN TEXTILE COLLECTION

Inspired by coastal sand dunes. With such extensive coastlines, Australasia is home to many active dune systems which contain some of the most spectacular and largest longitudinal dune systems in the world.

The long thin dunes that stretch across the coastal landscape form crescent-shaped lunettes that gather when the wind blows from one direction. Our designers took inspiration from the natural curvatures that form as a result of the elements.

The collection of luxurious yarn replicates a dynamic and inspirational environment filled with enormous amounts of personality. Curated to incorporate five on-trend neutral shades, each forms an integral part of the overall story.

Standing at the top of the coastal ocean bank, you are presented with lighter shades and tones of sand, and as you shift closer, the sand dunes begin to darken as they kiss the ocean water. A beautiful gradient story is formed.
