Zala

Inspired by an effortless sense of flow and harmony, Zala demonstrates the art of conjuring subtly contrasting atmospheres through the use of an embroidery technique. While understanding the practicalities of transforming one's interior space drove the overarching brief, the magic that transforms this drapery fabric is the soul-salving oasis of elegant curves and sensory delight through the use of subtle biophilic design and its connection to seasonality. It evokes a feeling of elegant, faded grandeur.

“It is a real luxury to have a generous supply of embroidery designs in the market, and Zala now forms an integral part of this unique product offering.” - Maya Vivian, Maurice Kain Product Developer
