NEW TASMAN

BACK *to* BASICS

SUBTLY DECORATIVE, EFFECTIVELY MINIMALIST

Our New Tasman fabric range is all about textile exploration. The fabric has an irregular horizontal pattern, eye-catching yet also subtle. Our colours have been specifically chosen to compliment a variety of different interior styles all with their own colour schemes ranging from beige through to black - the possibilities are endless.

Although this style is subtly decorative, you can still make an effective minimalist statement.

As seen in the Living Now Collection!

Curtain & Blind Coordination made easy! It's clear that we love embracing new innovations here at Four Families. Not all yarn types, and not all dyeing methods are suited to an effective fabric coordination. By combining these two concepts carefully, a seamless and harmonious coordination is achieved. Our designers have carefully colour matched Tasman Blind Fabric to over 78 of Maurice Kains blockout, sheer, lining and coated drapery collections.

MOODY MINIMALISM WITH TWO NEW SHADES

Neutral minimalism combines the purity of traditional minimalism with the drama of Greige and Beige colours such as Ash and Natural. The result is a modern and sophisticated look allowing your space to be deep and moody without the burden of adding too much colour.
