# SB-SOUTHPORT

## THE STORY

*Maurice Kain's Southport is well known as one of the best sheer fabrics on the market. Now available in a wider width and a range of impressive new colours, it is only natural for Four Families to introduce a Southport blinds fabric. SB-Southport is the Stiffened Blind version of Maurice Kain's Southport you have been waiting for!*

## HOW IT'S MADE

<b>COMPOSITION:</b>	<i>100% polyester</i>
<b>WIDTH:</b>	<i>327cm</i>
<b>ROLL LENGTH:</b>	<i>20-25m rolls</i>
<b>WEIGHT:</b>	<i>100gsm +/- 10%</i>
<b>THICKNESS:</b>	<i>0.27mm approx</i>
<b>OPACITY:</b>	<i>Sheer</i>

*Suitable for roller blinds, roman blinds & panel glides*

*Please Note: The manufacturing process required to stiffen Maurice Kain's Southport curtain fabric will create a variation in some colours. Some SB-Southport blind colours will be slightly darker than the Southport curtain colours, and some will have a hue change.*

## PAIRINGS

*The SB-Southport design & colours have been chosen by our design team to complement the Resene Origin blockout blind fabric, as well as the Maurice Kain Southport sheer curtain fabric.*

## TAKING CARE

*Cleaning your blind fabric is essential, not only to remove surface dust and stains, but it will also increase the longevity of your blinds. Use a feather duster, or a vacuum set on low with an appropriate attachment. Always exercise caution when spot cleaning. Use a clean, lint-free cloth or sponge and dip it in warm water. Dry gently with a clean towel. Always make sure to test any cleaning product on a small, discreet section of the fabric. Chemicals will permanently damage your fabric.*

# FOUR FAMILIES

RE-ESTABLISHED 2014

All the Four Families fabrics have a light fastness score of at least 6 on the blue scale (ISO 105-B02: 1994), which ensures that the colours will stay vibrant for many years to come. Colours may vary slightly from one production batch to another. Variations are within industry standard (Delta E reading  $1 \leq$ ). Please always check the colour before cutting.
