TAKING CARE

Cleaning your blind fabric is essential, not only to remove surface dust and stains but it will also increase the longevity of your blinds. Use a feather duster or a vacuum, set on low with an appropriate attachment. Always exercise caution when spot cleaning. Use a clean, lint-free cloth or sponge and dip it in warm water. Dry gently with a clean towel. Always make sure to test any cleaning product on a small, discreet section of the fabric. Chemicals will permanently damage your fabric.

FOUR FAMILIES

RE-ESTABLISHED 2014

All the Four Families fabrics have a light fastness score of at least 6 on the blue scale (ISO 105-B02: 1994), which ensures that the colours will stay vibrant for many years to come. Colours may vary slightly from one production batch to another. Variations are within industry standard (Delta E reading $1 \leq$). Please always check the colour before cutting.
