THE STORY

Introducing Bond, our latest blind innovation. Achieve a seamless appearance with Bond's unique feature - a textured look on both the front and back of the fabric. This ensures a polished finish from both inside the home: especially when back rolling, but also from the exterior facade. A first of its kind characteristic never seen before in the blind industry. Beyond aesthetics, Bond stands out for its commitment to sustainability. By eliminating the use of acrylic foam, we have reduced chemical usage by approximately 75%, contributing to a more environmentally conscious product. Furthermore, this absence of acrylic foam significantly minimizes the risk of V-ing, cupping, and tracking, ensuring a long-lasting and resilient blind fabric. Bond is odourless, enhancing the overall comfort of any space.

COMPOSITION:	100% polyester
WIDTH:	89mm, 127mm & 300cm
ROLL LENGTH:	300cm - 20-25m rolls 89mm & 127mm - 100m rolls
WEIGHT:	Light colours 370gsm Medium & Dark colours 320gsm +/- 10%
THICKNESS:	Light colours 0.65mm Medium & Dark colours 0.6mm

TAKING CARE

Cleaning your blind fabric is essential, not only to remove surface dust and stains, but it will also increase the longevity of your blinds. Use a feather duster, or a vacuum set on low with an appropriate attachment. Always exercise caution when spot cleaning. Use a clean, lint-free cloth or sponge and dip it in warm water. Dry gently with a clean towel. Always make sure to test any cleaning product on a small, discreet section of the fabric. Chemicals will permanently damage your fabric.

FOUR FAMILIES

RE-ESTABLISHED 2014

All the Four Families fabrics have a light fastness score of at least 6 on the blue scale (ISO 105-B02: 1994), which ensures that the colours will stay vibrant for many years to come. Colours may vary slightly from one production batch to another. Variations are within industry standard (Delta E reading $1 \leq$). Please always check the colour before cutting.
