EURO ST LUCIA

THE STORY

It is a simple one! Screen fabrics are so popular, but not everyone likes the 'engineered' look, so St Lucia is a softer version of a traditional screen. It is just as contemporary but with less of a minimalist look than most screens. Grab the swatch and put it in front of the window, it does a brilliant job at softening the light entering your home.

Euro St Lucia is now available in an updated colourline, a new width of 300cm, and woven in Europe with one of our European weaving partners.

TAKING CARE

Cleaning your blind fabric is essential, not only to remove surface dust and stains, but it will also increase the longevity of your blinds. Use a feather duster, or a vacuum set on low with an appropriate attachment. Always exercise caution when spot cleaning. Use a clean, lint-free cloth or sponge and dip it in warm water. Dry gently with a clean towel. Always make sure to test any cleaning product on a small, discreet section of the fabric. Chemicals will permanently damage your fabric.

FOUR FAMILIES

RE-ESTABLISHED 2014

All the Four Families fabrics have a light fastness score of at least 6 on the blue scale (ISO 105-B02: 1994), which ensures that the colours will stay vibrant for many years to come. Colours may vary slightly from one production batch to another. Variations are within industry standard (Delta E reading ≤ 1). Please always check the colour before cutting.
