

PRODUCT RELEASE SHEET

FORESTS COLLECTION

Due to overwhelming popularity for our original recycled innovations, we have crafted a new collection to join our sustainability journey.

Environmental luxury takes form as our Forests Collection. Made from 100% Recycled Polyester - each metre of fabric contains 81 one litre plastic bottles that have been recycled and prevented from entering landfill. The collection incorporates a dual selection of drapery fabrics across 5 beautiful earth inspired tones. The sheer and solid line up offers endless options for blending and sculpting in your home, to create unique and sustainably orientated interiors that exist outside the possible combinations with just regular Polyester drapery.

The Forest Collection has been tested as Fire Retardant inline with AS/NZS1530.2 & 3.
