## DESERTS COLLECTION

Due to overwhelming popularity for our original recycled innovations, we have crafted a new collection to join our sustainability journey.

Environmental luxury takes form in our Deserts Collection. Made from 100% Recycled Polyester - each metre of fabric contains 81 one litre plastic bottles that have been recycled and prevented from entering landfill. The collection incorporates a selection of drapery fabrics across 5 beautiful earth-inspired tones. The sheer and solid line up offers endless options for blending and sculpting in your home, to create unique and sustainably orientated interiors that exist outside the possible combinations available with just regular polyester drapery.

Deserts has been tested as Fire Retardant AS/NZS1530.2 & 3.
