

MALIA

Crafted with a sense of experiential depth, akin to a design-centric archive of botanical paintings, comes Malia, a continuous romantic sheer drapery collection. Featuring a picturesque combination of photo-realistic floral and bird motif character fields, Malia showcases a swoon-worthy story with artisan quality which lends an air of drama to the interior.

Materials were chosen carefully — 100% Polyester for longevity and consistency on the window. The combination of dark and light foregrounds adds a sense of experiential depth and personality to the design, an intentional design cue of our in-house designer. Malia has been purposefully sampled with our Sayville plain collection.

Malia has also been tested as Fire Retardant to AS/NZS1530.2 & .3.
