

ORTANA

Offering the same bold floral design as Santiago, Ortana is elevated through its weighty linen-blend base cloth, bringing depth and a more luxurious finish to the look. The natural slub of the fabric enhances the design's layered quality, pairing structure with softness.

Ortana's heavier composition gives it a rich, full drape, perfect for high-end residential or boutique commercial spaces. Its natural character and refined palette make it a go-to for interiors that value both texture and impact. Presented in three sophisticated colourways and woven in a 300cm wide continuous width, Ortana delivers timeless elegance with a modern edge
