

COPACABANA

Inspired by tropical themes with an artistic twist, Copacabana showcases the same striking design as Ipanema, reimagined on a richly textured cotton base. The 100% cotton construction provides a natural hand feel and elevated finish, ideal for creating a more organic aesthetic.

With a 300cm continuous width, Copacabana offers generous coverage and exceptional drape. Available in three coordinated colourways, it's a bold yet refined option for stylish, statement-making windows.
