A REAL *breakthrough*

PURPOSEFULLY REFINED, TRULY INNOVATIVE

Experience a flawless and seamless appearance unlike anything else on the market. Bond's distinctive feature includes a textured appearance on both the front and back of the fabric whilst achieving 100% blackout, this ensures a seamless finish from inside and outside the home. This pioneering characteristic is a first of its kind in the blind industry, setting a new standard for excellence

BONDED BLOCKOUT BLIND FABRIC

— fabric texture is the same front and back

CARE INSTRUCTIONS

Cleaning your blind fabric is essential, not only to remove surface dust and stains, but it will also increase the longevity of your blinds. Use a feather duster, or a vacuum set on low with an appropriate attachment. Always exercise caution when spot cleaning. Use a clean, lint-free cloth or sponge and dip it in warm water. Dry gently with a clean towel. Always make sure to test any cleaning product on a small, discreet section of the fabric. Chemicals will permanently damage your fabric.
