

These 2 blinds saved approx. 130 bottles from landfill.

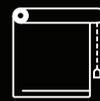

Recraft

A first in the blind industry, Recraft brings our commitment to the environment into all aspects of window furnishings.

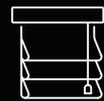

Made from 60% recycled polyester from post-consumer PET bottles, it has a beautifully textured weave that gives a linen-like appearance. The decorative looking blockout also comes with colour-matched coating, perfect for back-rolling.

Recraft has all the quality and performance characteristics you can trust from Four Families with the comfort of knowing you are making an eco conscious choice for your home.

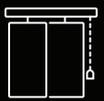

Each square metre of Recraft uses 16 post-consumer PET bottles. With rolls 3m wide, this equals 48 bottles per linear metre, and for a full roll of 20 - 25m, that's 960 to 1,200 bottles repurposed per roll.

COLOURS:

CHALK, LINEN, ANGORA, OYSTER, BIRCH, MARBLE, LEMONGRASS, CHARCOAL

COMPOSITION:

60% Recycled Polyester
40% Polyester
Blockout Acrylic Coating

WIDTHS:

300cm

ROLL LENGTH:

20 - 25m Rolls

WEIGHT:

491gsm ± 10%

THICKNESS:

0.75mm ± 5%

PERFORMANCE:

Opacity: Blockout

Complies with AS2663.3.1999

TECHNICAL:

Light Fastness 6 (blue scale)

Tested to ISO 105-B02:1994

THE JOURNEY

Post-consumer PET bottles are collected, sorted, and cleaned.

The recycled plastic is processed and broken down into small chips.

These chips are melted into liquid plastic, with colour added if required.

The liquid plastic is extruded and spun into fine recycled yarn.

The recycled polyester yarn is woven into the finished fabric.
